

## SUMMER WORKCAMP

For the last several years, our school, in collaboration with the association InformaGiovani, has been welcoming a group of international volunteers during the week before the opening of the school year for the so-called SUMMER WORKCAMP between the end of August and the beginning of September (dates vary according to the school calendar). Guided by school teachers, the group helps in the work that prepares the spaces of the school: the young people repair and paint furniture; thoroughly clean the common areas, tame the garden after the long summer break, and many other large and small actions are needed to make the school spaces welcoming again and ready for the arrival of the children. The group of young volunteers is hosted on the school premises and prepares their own meals using the school kitchen. In addition to the hours of work, the group of young volunteers has the opportunity to enjoy what the city of Palermo offers, with its cultural history, its social life and its beautiful beaches. Together, the volunteers experience a week of profoundly meaningful work for the school community, as well as a moment of intense meeting with like-minded young people and with our beautiful city.

Anyone interested in participating in the SUMMER WORKCAMP is asked to write an email to the school office; [scuola@waldorfpalermo.org](mailto:scuola@waldorfpalermo.org)
